HOBBIES & INTERESTS

Kayla is a great lover of the arts and creating, however, when she's not doing graphic design work, her passions lie within her hobbies. This year, Kayla picked up 3D modelling on Blender and has started writing a novel.

Kayla deeply enjoys reading fantasy novels and is currently reading the Crescent City series by Sarah J Maas. She recently got married and travelled to one of her favourite places in the world, Zambia, on honeymoon.

Aside from the arts, reading and travelling, when she has the time, Kayla loves horse riding, being an equestrian for over 10 years. She also enjoys ballet, pilates and yoga.
